North Brittany: Cherbourg To Ouessant And The Channel Islands (Chart)

Synopsis

The new edition of the RCC Pilotage Foundation's pilot for North Brittany - Cherbourg to Ouessant and the Channel Islands - has been fully revised and brought completely up to date to maintain its place as the best-known companion for that coast. The text and plans have been redeveloped so that the sailing directions now make full use of recommended waypoints. New index charts have been introduced to improve cross-referencing and throughout there are new sea level and aerial photos. The Royal Cruising Club Pilot Foundation's North Brittany has a long and distinguished pedigree that dates back over 40 years. During that time it has always been regarded as the definitive pilot for yachts negotiating the scattered rocks and difficult tides of the Brittany coast. This new edition builds on the popular format of the previous editions and includes all the latest information to bring it completely up-to-date. Captain John Lawson had a long career in the Royal Navy, followed by years as the skipper of a sail training vessel and a lifetime of sailing his own boat, gave him great practical knowledge. His contribution matched his enthusiasm and was considerable. It included authorship of South Biscay, North Brittany and the Channel Islands, and revision of The Atlantic Crossing Guide. Contents: Introduction; 1. Cherbourg to Cancale; 2. The Channel Islands; 3. St Malo to Lezardrieux/Pontrieux; Treguier to Ile d'Ouessant and an Appendix.
