Customer Reviews

The journey continues and well it's amazing every, Minecraft lover should read this. Honestly this series is the best ever written on this topic. Whether you are young or old a

novice or expert in Minecraft this series is sure to get you hooked.

Evoker 1 was good but 2 has taken it to another level. Love the work by King, I think he should get an award for his exemplary service towards kids. My son gets me to read one of his books before going to sleep.

the first book was awesome but i was expecting it to end up like all of your other books with no end to it but you actually continued it and thats why i give 5 stars. RainbowCreeper signing out.

This book is amazing for little kids. It is simple to follow yet very engaging, since it is an action packed book. They love it more since it has to do with the popular game Minecraft.
