I'm teaching myself how to play piano and am using this series along with the Adult Alfred's Course. I absolutely love this book. I was frustrated with the pieces in my lesson books because they sounded like dumb downed versions of the original. These pieces are outstanding and are very clear as to the fingering (always helpful when you're a beginner!). The CD that comes with it is spot on and very helpful. I'm looking forward to progressing with these books.

These books are a great resource of classical music literature. The series ranges from beginners to more advanced students. Great for the piano teacher or self motivated student. Each book comes with a CD of the music to speed learning. (Level 1-2)

I have been looking for a beginning piano book with a CD to play along with and was excited to get this. The pieces are fairly easy but the speed at which they are played on the recording is way too fast for a novice. There are no Largo pieces in this book; almost all of them are Allegro and faster, and might be frustrating for a beginner.

One of my favorite volumes for teaching classics. It starts out with very easy pieces. You can't beat it. A very nice CD, too.

It is what was required for my keyboard class and I use it when required.

Check out Alfred Basics Level 6 Lesson book, for similar difficulty. This is a great series to begin, following the Alfred's Basics series.

Nice assortment of pieces.... use this book often

I'm starting to play the piano sheet music and these arrangements are great for beginners. Scores are masterwork classics but with arrangements made easier for beginners and a cd to listen. I liked it a lot.
