The Living End Of Cancer: One Woman's Faith-Based Journey Through Non-Hodgkin Lymphoma

Synopsis

In April of 2010, multi-published, award-winning author Carla Rossi felt the best she ever had. That all changed with one routine doctor visit. Tossed into diagnostic tests, surgery, chemotherapy, procedures, and targeted drug therapy, Carla gives us a transparent glimpse into what the journey was really like –â œ good and bad. With friends and family at her side, Carla takes us through the ups and downs of her non-Hodgkin lymphoma cancer battle with practical and scriptural faith, humor, and her own understanding of the medications that helped save her life.

Inspirational

Customer Reviews

GOD is often times overlooked when illness and disease are present. We tend to only remember HIM when we are bartering, not realizing HE is walking and caring us each step of the way. This book is very inspirational and if it brings you one step closer to GOD then that's a plus too

In the prime of life, the last thing Carla expected from her check-up was a cancer diagnosis! She didn't have time for this. She had books to finish; Sunday's music service to plan; her first grandchild

on the way. The treatments are brutal, recovery messy, and each subsequent chemo worse than the one before. But Carla is a Christian, strong in her faith and paired with a husband of equal conviction. In addition, John is one of those rare men who truly seems to understand his wife. They are the most amazing couple I know. Whether your life has ever been touched by cancer or not, her story of hope and faith, of leaning on others in her weakest moments will surely bless you. Don't miss this opportunity to share in her victory.

This book exemplifies what it means to have a faith based experience with a devastating diagnosis (or any of life's problems). For those who have strong faith it is a testimony. For those looking, it teaches what it means to have the peace that comes from a relationship with God and how through him what is unbearable can be bearable. With the scripture to back it :-)

It's hard to believe how someone's pain, suffering, and fear can be so inspiring. Carla Rossi has captured the essence of "God uses all things for good." She reveals the ugly side of cancer while beautifully spotlighting God's miraculous splendor. The honesty is gripping. Praise God!!!

For anyone struggling with cancer. Luckily I'm not. But after watching my dad struggle through his and lose his battle I had to know more. This is a simple straight forward account of her every day struggle with her cancer. I cried at the end as it is that emotionally charged. You can't help but feel you are right there with her.

this is an exceptional book and a must read for anyone who has ever faced the "c" word, or loved someone with the "c" word, or the healthcare providers caring for those experiencing this situation. I loved it and read it in one sitting.

God's grace and the power of faith remains a constant reminder in this honest , blunt, insightful book . Carla exposes herself , her beliefs , and her hopes allowing the reader to connect and feel along with her. Whether you have had or know someone who has gone through this battle, this book comforts and informs.

True account of a beautiful woman's journey through cancer and other additional experiences with her family and her God. Absolutely inspiring and very well written! Go Carla!
