## **Customer Reviews**

Kugane Maruyama is the author behind the Overlord novel series. so-bin is the artist behind the Overlord novel series.

Amazing story, our main protagonist thoughts are revealed to us, as he is going about solving the problems that are beginning to reveal itself in this new and strange world. I love the art and character designs, only wish that the book cover was coated to protect that awesome cover, I'm going to have to go laminated it myself.

This volumen is a great example of this series, it provides a lot of information regarding the story, but it brings questions, it provides complex characters in special situations, and presents a fight that it manages to be intense and surprising,

Great ride. Too dark though. Writer is going super grimdark route for anyone aside the main cast of critters. Watch the anime first.

Its a great story and it was worth buying it. The only problem i had was that the cover sleeve had marks.

I am a person who potentially hates reading but I would pick up an overlord light novel every time I want to read a book I will always choose overlord and have a successful and meaningful read.

A+

The series continues to deliver great plot and characters. I love how it all interweave with what has happened in the first two books and foreshadows what's to come with out being obvious about it

This one it's the chapter that have more things to think about combat. And it's the prelude for the next book, that, for me, get things more deeper.
