Synopsis

#CHALKBOARD Coloring Book (AGES 1-100) #CHALKBOARD is for every single person out there who can find pens, pencils, markers or crayons! Book No. 4 in the "# Series" One of the most enchanting, most innovative Coloring Book Artists in the world, Cynthia Van Edwards has done it again. In this incredible new Coloring book, the 4th in the "# series, you will get to work with images and illustrations that look and feel 3-dimensional. The new coloring pages in this book break away from conventional coloring and offer a completely new and mind-altering experience virtually forcing your creative juices to flow - a mixture of single and double page images. What makes this book especially different from #Love, #Beautiful and #Flowers is that Cynthia focuses on texture on a background that looks and feels like a chalkboard. The pages in this book can be colored with pens, pencils, markers or even pastels and chalk! #Flowers celebrates the delicate beauty and embrace of flowers and their tiny intricacies. You're going to love the variety of backgrounds as well. With a mixture of "Midnight" (black), white, and Wireframe backgrounds, your senses will be challenged as you put pen or pencil to work adding life and magic to these pages. This new series is going to be something special to any Colorist and we can't wait to see the beauty you create! Now, let's see what you're made of! #CHALKBOARD This book has been a collaborative effort between artists, designers, and psychologists. This book not only soothes you, but also increases mental stimulation. The pictures and designs may seem random at first glance, but they're anything but. We hope to give the designer (you) a very introspective and mind expanding experience. PLEASE: Take pictures of your finished coloring designs and post them to CYNTHIA VAN EDWARDS's Facebook page, add the hashtag #ChalkboardColoringBook to your post.

Cynthia Van Edwards Born in Oklahoma, with fierce Comanche blood in her veins, Cynthia Van Edwards spent hours and hours as a young girl riding horses and drawing. She found herself guiding towards arts programs and psychology in college, attending Northwestern University, where she graduated with honors. She began a career that started in counseling for children that were having learning issues in school. She eventually began working with adults who were suffering attention deficit issues and began thinking of ways to inspire people through artwork.

I'm having so much fun with this one! There are several different styles to choose from... especially nice if you just want a quickie once in awhile. Oh and when you're done coloring (if you're using markers), the backside is pretty cool, too! I definitely recommend this one!

This was the 1st time I had actually seen "chalkboard" drawings and I thought it was going to be super difficult to color them. I was wrong!!! I had a ball coloring these pages. I sat with my preschool class and colored one. They even wanted to try it out. Ms. VanEdwards has done it again!!!
#Chalkboard is a coloring book that is great from adults and children! I'm in love with her work. Well drawn art work the pictures will have you laughing and creating headlines for the pictures!! Can't wait for the next book in the series.

This is the 6th book of Cynthia's I have purchased. I do enjoy the designs, they are very simplistic and cute. The background is like a chalkboard, imperfections and all. BUT that adds to it not deters anything. Right now I have done just a flip thru as am working on some other things right now, but as soon as I do a few pictures will be adding them.

I love this book! I love that I can share it with my children, and the pages aren't horribly difficult. I recommend this book for all ages.

I VERY much like this iteration in the # series. Chalkboard is less "intimidating" for me than a white

(or all-back) background, and i really appreciate that the designs are not as very complex as many other books.

This is a fun little book. The drawings are very different being that they are supposed to give the feel of having been drawn on chalkboard. I like the look of white graphic on a dark background. The images I have colored took great patience because the lines are so thin. The little ballerina bear is my favorite of the images I have colored because she is so cute and whimsical. The guiding arrows were by the easiest of the 3 to color because they had some wider spaces to color. And lastly the floral star was the hardest because of all the many lines!! :) Take your time with the images in this book! There is no rushing to get a quick picture colored in this one. I found that bright/neon colors or pastels look best on the darker backgrounds. The floral star was colored using metallic and glitter gel pens and you really can't tell. I continue to enjoy Cynthia's work and look forward to more in her #series!

Another cute book. I am lucky enough to be on a coloring team for Cynthia and receive advance copies of the coloring pages and/or books. #Chalkboard is another great book. Will be adding pictures of colored pages when I finish them. Can't wait to share my colored pictures. Being on Cynthia's coloring team has got me coloring things that I wouldn't normally color. The pictures do not show how pretty they are up close.

Cynthia Van Edwards has outdone herself once again. She never disappoints me with her work. #Chalkboard #ColoringBook is book 4 in her #series. With each book they get better and better. If you haven't checked out the #series yet then you should get on that. These books are a great addition to anyone's adult coloring book collection. It is absolutely beautiful and you can use, gel pens, pastels, markers, or any medium you choose on this chalkboard style book!! This is my opinion and my opinion alone. I was given an advance look at the book for my honest review.
