Eastern Europe

## Customer Reviews

Total rip off! Most of the suggestions are for seasonal events. There are no addresses for the restaurants or sites listed, no phone number, no email. Basically it is just a random list of place names. Finding them is totally up to you. Do not waste your time or money.

I don't even know where Budapest is and what are in there? I am thankful that I was able to read this book guide and I discovered the amazing things to do and experience in there. Though I was expecting a spectacular introduction about the place and some pictures but I like it anyway. This was written straight to what are the things to be found and to do in Budapest.

I liked that this book had specific places and dishes recommended. Also had some things I did not find in my other travel book. Would be nice if it were organized in a way to find things easier, maybe by category? Since its an eBook, then one could just click a link to that section.

Ended up getting a couple guides on Budapest. The other guide - Rick Steves Guide to Budapest was much better and more useful.

I have not been to Budapest in years and do not foresee going in the near future. But this book makes me want to go. It is intelligent and informative. The author is like a friend who takes you around and shows you everything you need to know about the place. Highly recommended!

There is nothing to this book. You could do an internet search and get similar. No map or photos. Just a simple few sentence description.

Same list as in professional travel books. No author, no publisher. Not worth the money.

I love to research areas before I travel to a city. This quick overview made it fun. I would like each item to be linked to the website...
