Customer Reviews

It gives good general descriptions of dive sites on Truk and has been informative on diving and other subjects

Very pleased with this book. I will be using it during my dive trip to Palau in the next few weeks.

Like all the Pisces dive guides I've read, this one is superficial and poorly illustrated. Don't waste your money on this lightweight and useless pamphlet masquerading as a dive guide.

very helpful in telling me what to expect at various sites so i could decide which lens to put into my housing. Camera preparation cuts into my vacation time...and these books help get ready. So i always study them before i go. always.
