This is a great cookbook Rapid Fat Loss.All of the things, information and recipes that I need to know on how to lose weight and upgrade my life are already included and well-illustrated inside. Cooker Press has done a good job in compiling and creating this cookbook.Also the unique part of this book is the compilations of the ÃfÂçÃ â Ñ Å“50+ Weight Loss RecipesÃfÂçÃ â Ñ Â•. Very healthy, delicious, and easy to prepare.The book is worth reading!With that, I'd like to give this book a Very High and Amazing 5-Star.

This book will help you on how you will have a healthy and quick food that is straight from your kitchen .You will be able to know recipes that is tasty, healthy and so easy to prepare. You won't think of eating outside because of this easy to prepare foods.No worries about the foods because the recommendations are delicious as well to take.

I'm honestly not sure who all the positive reviews are from. This is a poorly edited book to say the least - it reads like someone took the original and ran it through Google Translate - and called it good.It's also not a "meal prep book" unless you're cooking just for yourself - most recipes are 4 servings. They're also just not very appetizing, though that's just my opinion. Returning.

This was a bad translation of a poorly informed person's recipe book. I don't know who all the good reviews are from, but it doesn't seem like anyone that actually tried to read this.

Easy recipes to make to help you lose weight....i have been reading a lot of these books lately and found this one to have really great recipes.

If you are searing for a cookbook about meal prep then you are on the right place as far I can say and this book will be perfect for you, honestly. Throughout this book I have come to know lots of helpful tips and FAQs about meal prep.Inside of this book I have found lots of awesome & healthy recipes (breakfast, lunch, dinner and snacks). For easy recipe I have found full nutritional

information. It also guided me about how to avoid all the common mistakes. By the help of this book I have learned plenty of cooking formulas as well and now I am really glad to know all those formulas. I liked all these recipes that I found here inside of this "Meal Prep" cookbook and didn't face to learn these recipes.

Very cool, nice and easy meal prepping. I enjoyed the breakdown of what meal prepping is. It is great to use when training, or when you are crunched on time.

Wow. This book was so horribly written and obviously was not edited or reviewed before publishing. I'm glad I only paid 99¢. One of the importance of meal prepping is knowing the serving size of food and amounts of ingredients to use. One recipe called for a fowl that is suitable for boiling, but did not list how much. Another recipe stated it made 42 servings! Which is obviously a misprint. Not to mention the numerous spelling errors. There were too many recipes that had you doing guess work. The shrimp fried and rice recipe listed in the description was one of the reasons I purchased the book, but when you read the recipe it doesn't even list shrimp in the ingredients. Am I just suppose to assume I use a pound of frozen shrimp? There are a few recipes in this book that I will try, but other than that this was a waste of time to read.
