## Customer Reviews

This is definitely his best book ever. It's a collection of his most beautiful pieces ever such as Angel Eyes and Valentine. If you are a Jim Brickman fan like me...then THIS IS A MUST-HAVE! (If you don't know who Jim Brickman is..buy this anyway because you will get hooked on his music!) I encourage all of you to buy it because you will not regret it. Other pieces here include By Heart, If You Believe, In a Lover's Eyes, Borders, Heartland, Rocket to the Moon, We Met Today, Hero's Dream

Very stimulating work. The songs beginning from "Angel Eyes" to the last "Three Blind Mice" are so playable and memorable. If you want to have an impression of how each music would sound BEFORE or AFTER you play them, go to YouTube. Example: the song "DESTINY" in piano. Go to Google or whatever Search Bar and type: Destiny, Brickman, Piano YouTube. Then you will SEE and HEAR different interpretations of that music. It also helps you learn quickly to play the music on the piano because you would have the "image" of how it sounds when played by someone else. Do you

know PRECISELY or EXACTLY how you sound when you play something in the piano WITHOUT being videotaped by someone or being taped by a recorder? By analogy, you wouldn't know exactly how your own voice sounds unless you hear it your tape recorder or video movie. This is how I found out that the songs in this piano anthology is worth the effort to play and memorize them. It may also give you an idea of how to "add" a little of your own to the music. There are times when you look at the sheet music, play a few bars or even the whole thing and then decide it may not be appealing to you. But when you hear it in YouTube, you may change your mind and say, "Hey, that's not as bad as I thought. I think I will include this in my repertoire." Try this approach if you have not been doing it yet. Just go to YouTube. You can access virtually ANY kind of music, classic, pop, rock, new age, Latin, ragtime, march, hip hop, etc, etc. You will also definitely be amazed to see and hear kids as young as 6 yrs old playing extremely and technically difficult music and say "wow! Why I gave this work only 4 stars? Just a technical reason. Because I wish the printed music notation were a little larger and amazingly more "comfortable" to read like those of Dan Coates' arrangements.

I love his music . It will take some practice to master as I have not taken piano lessons except for 6 months

Exactly what we wanted,... arrangements that sound like the original Brickman compositions!! A challenge to play, but very pleased with the results!

most of these pieces are clichÃ© and boring

My wife loves it. We both enjoy listening to his music and she enjoys playing it.

Great selections. I can't play them yet, but my granddaughter sure can!

It's great book! All pieces have beautiful melodies and make me feel happy. I'm impressed to these songs, and I would enjoy them till I memorize all of them.
