I purchased this book for a class I am taking and love it. It contains brief short stories from all over Latin America and Spain. I like the fact that all countries are represented. The stories are interesting. The book has a brief biography of idioms before each story and a glossary at the end. It is a good introduction to Latin American & Spanish literature and helps improve your Spanish at the same time.

I am using this in my advanced Spanish class. This is an advanced level book that has difficult

exercises and difficult stories to translate. It is full of Idiomatic Phrases that are necessary to really learn conversational Spanish. It is at a more difficult, higher level. But, that is what is needed to learn to be "conversational".

Great job

Momentos Hispanos is an enjoyable textbook. Each chapter gives a brief history (in English) of a Spanish speaking country followed by a short story (in Spanish). The book introduces vocabulary and modismos, expressions used in Spanish, which are then incorporated in the story. The review sections provide students with further practice for what has been presented. This is not a grammar book and is more appropriate for intermediate students than for beginners.

Very good product
