SPELLING WORKOUT LEVEL H PUPIL EDITION

Synopsis

Your child will have to write in his or her daily life both in college and beyond, so being able to spell with proficiency is very important. While giving your child a strong Spelling foundation may seem like a serious matter, the actual instruction you provide can be fun and engaging. In fact, it should be! The Modern Curriculum Press (MCP) Spelling Workout is a homeschool program designed to be highly engaging by requiring active participation. Instead of simply reading and memorizing words, your child will learn how to predict Spelling patterns with the help of some hands-on activities. The MCP Spelling Workout curriculum for homeschooling includes riddles, puzzles, writing prompts and cross-curricular reading assignments that make Spelling an exciting subject. By the time your child reaches Grade 8, which is the final installment in the MCP Spelling Workout program, he or she will be ready to take on more complex information. During MCP Spelling Workout: Grade 8, he or she will grasp the English language rules that will help him or her predict patterns in Spelling. For instance, your child will know that "i" comes before "e," except after "c." Additionally, your child will solidify his or her foundational Spelling knowledge while glean new age-appropriate Spelling concepts. MCP Spelling Workout: Grade 8 is a dynamic program, allowing you to set the pace of your child's homeschooling progress. Feel free to go back and review challenging concepts or push forward through the ones your child seems to understand easily. MCP Spelling Workout was designed to be used in conjunction with the appropriate level of MCP Plaid Phonics. This second program is a Spelling curriculum that approaches the English language through sound. With MCP Spelling Workout and Plaid Phonics on hand, you'll be able to provide your child with a well-rounded Spelling education. Even without MCP Plaid Phonics, you will construct engaging and thoughtful lessons. The materials included in MCP Spelling Workout: Grade 8 will help you do so. For more information on the materials included in Grade 8, visit the Features and Benefits page. With Spelling Workout, every child can become a successful speller in no time. This high-interest program offers an easy-to-implement step-by-step approach to spelling success. Spelling Workout has all the components you need to go from simple sound-letter relationships to more complex spelling patterns. Your child will learn spelling skills based on phonics through unique, cross-curricular reading passages, practice, and high-interest writing activities. Packed with flexible lessons, motivating activities, including fun riddles and puzzles, this dynamic program promotes spelling success! You can use Spelling Workout together with MCP "Plaid" Phonics to provide your child with a complete phonics and spelling curriculum. Looking for other grade levels? We did every level of Spelling Workout for two kids for homeschool. The result is I have two kids who can spell better than I can. This book is no frills, no nonsense. Words are grouped in logical sets of similar words, not like the bizarre and seemingly random "word lists" that my kids' friends would drag home from public school. Each chapter is arranged in a way that made it really easy for me to keep track of where we were to finish the book by the end of our "school" year, and also to divide the lesson up through the week. We usually did it in three chunks, Monday, Wednesday, Friday. With black and white newsprint like pages and simple illustrations, it's not the prettiest spelling book ever, but it gets the job done.

The words in this book are difficult. More advanced in my opinion than the levels they say. I would choose a grade level lower unless your kids are very advanced. My kids always got 100% at school on tests, but this book is much more challenging than public school spelling. My kids are excellent readers and spellers and it is still challenging for them. We continue to use it, but children not as advanced will have a difficult time with the words.

I have been using this series as part of our homeschool curriculum, and I have found it to be excellent. It is very thorough, the progressions make sense, and the material provides enough variety in the exercises to be engaging. I only wish there was a Canadian version!

The Spelling Workout series are great books for the homeschool family. They present words in logical groupings, teach words that are in common usage, and offer enough variety so they aren't boring for the student. They are easily broken up into daily assignments that cover one lesson each week and fill up an entire school year.

Good learning book.

We really like using these spelling books. They have a lot of activities for each list. I would recommend these books.

great spelling program; we've used this all the way through from grade 2-8. excellent

I absolutely hate this series. I began home schooling two years ago, and in my excitement I bought the entire series all at once (I have several children of all ages.) When I opened up the books and flipped through the pages, I saw that there was NO rhyme or reason to the lists. They didn't focus on groups of words, there were no themes, nothing. The lists were completely random! Not only that, but there were super easy words thrown together with much more difficult words, all in the same list. I tried to like this series. I tried to get my kids to do them, as "dutiful" home schoolers. But they hated them, I hated them, and they sat on my shelf for two years, nearly untouched. Yesterday, I threw away every single one of the books. I couldn't try to give these pathetic excuses for spelling books off on anyone else. Today a home schooling mother friend of mine was telling me how much their family hated their spelling workbooks, and they were the same series that I had thrown away the day before. I told her what I had done, but she can make her own decisions. WHAT I DO LIKE IS "Phonics Pathways: Clear Steps to Easy Reading and Perfect Spelling." This book starts out at the very beginning, and progresses through to advanced words. I first taught my 3rd grader how to read, and now I'm going back through the book and teaching him how to spell (I also use "spelling time" to perfect hand writing/penmanship). I also hated, "Teach your child to read in 100 easy lessons." This book, Phonics Pathways, is a perfect book to teach reading AND spelling for children, adults, and ESL students - all in one book. Just keep the length of the sessions appropriate to the attention span of the student. If you want a list of words for your student to work on, then take the misspelled words from your student's writing.
