# Lightning-Fast French For Kids And Families: Learn French, Speak French, Teach Kids French - Quick As A Flash, Even If You Don't Speak A Word Now!

## **Synopsis**

No time to learn French? Want to teach your children but don't speak French yourself? Lightning-Fast French helps you incorporate French into your everyday activities, so you learn while doing the things you already do. You'll teach your children French the same way you taught them English - by interacting with them as you do daily activities. No need to set aside extra time in your busy schedule, and no need to speak French yourself - with this unique program, you both learn as you go. You'll be amazed at how quickly you see results! If you want to get your family speaking French fast - this book is for you! Lightning-Fast French is: Built around everyday situations - no need to set aside special time, and you will use your new language the first day! Ready to use with phonetic pronunciation included - no current French knowledge needed! Fun and easy to start!

Audible.com Release Date: April 12, 2013

Language: English

ASIN: B00CC2E5MI

Best Sellers Rank: #92 inÂ  Â Books > Audible Audiobooks > Language Instruction > French

## **Customer Reviews**

Good book, looks kind of cheap but it has the information you need to actually "speak French" because they have written the French the way it is pronounced in addition to the actual spelling; just like in medical dictionary. So you got the sentence in regular French, then the same sentence all mashed up in whatever sequence/vowel combination for an English speaker to read and make it sound like French. I was born French speaker, however my children were born in America and there are not many places I could take them to get submerged in French. This book is great because all my children can read and they can, on their own, figure out what it is they want to say and how to pronounce it in French. I bought audio books in French too so that they hear other people speaking beside me.

I've taken classes, used audio tapes, and read the books. The only way any of it stuck in my head

was when we made a month long trip to Okinawa, Japan and had the opportunity to use it regularly. The problem I was having is that I would learn terms and phrases in class but never had the opportunity to use them outside of the classroom. The words I did learn in Japanese were the ones we used in the dojo, because these were the words I heard and practiced every day. I was skeptical about using yet another book to learn another language, but I jumped at the chance to try out "Lightning Fast French For Kids and Families" by Carolyn Woods. I've always wanted my kids to learn French but I didn't have knowledge to teach them myself. I studied French in elementary school and remembered a few of the basics, but to carry on a conversation? Forget it. My husband is bilingual. He speaks both French and English but never speaks French at home. The only language they are exposed to on a regular basis at home is English. I've now made some steps in the right direction to change that!"Lightning Fast French For Kids and Families" takes a unique approach to learning French. Ms. Woods doesn't focus on all the grammar lessons, instead she allows you to learn as you go. I love the fact that she uses everyday situations to help you learn. Not only does the book encourage you to learn a new language, it encourages more time spent with your family. How many hours did I spend in a classroom surrounded by strangers, learning phrases that I would never use? Ms. Woods has created an environment that you can learn and most importantly have quality fun time with your kids! One of my favourite chapters is "Conversation #13: Cooking". She has included a recipe for pancakes and all the terms and phrases you need to make them with your kids. My kids are picky eaters so I used our standard pancake recipe, but we had a lot of fun trying to talk through our own recipe in French. Concerned about how to pronounce the words? Not to worry, she has included the phonetic spelling of each word. The book covers a wide range of everyday experiences from bed and bath time to games and dress up. Ms. Woods has made learning a new language fun and something we look forward to every day! The book is lightweight enough to stick in the diaper bag that we are able to take it with us when we go out to the restaurant. It's a great way to entertain the kids. Disclosure: I received the products mentioned above for this review. No monetary compensation was received by me. This is my completely honest opinion above and may differ from yours.

This is just a list of words that you're directed to drill with family. Unless you're a family of uber-studious, not-fun list-memorizers, this book ain't for you.

Not good for never learn French. My daughter is confused using this book

I love this book. It's simple and to the point. The pronunciations are nice, although different from what I'm used to (the way the pronunciations are sounded out in the book not the pronunciation of the word itself). I like the whole concept of integrating French into your daily routine. It would be nice if this came with a CD or something so you could hear the French spoken and know you're on the right track. This is a great book in any case to add to your library of language-learning materials.

I didn't get it yet but I read a few pages online its amazing I already learned how. To say some of the wordsTrust me its a great present for kids I love it

Excellent idea. Hoping to put this into practice soon. I think this will really help my family learn French.

This is a REVOLUTIONARY way to learn a new language! The layout of this book is perfect. The format is so easy to use that my 9 year old daughter is now "instructing" her two little brothers while they pick out their clothes for school. It folds the learning of French right into our daily habits. BRILLIANT! No need to "find the time" to study- and using the new words during our normal activities really reinforces the new vocabulary! We have pages of our book taped all over the house so that we can use it all day long. The kids think its a blast and the best part- they don't realize they are learning! Thanks, Carol for such a revolutionary way to learn French!
