Customer Reviews

I so enjoy reading any/all of Dave Barry's books. It started twelve years ago. I was temporarily living with my sister and her family as I was going through a long period of chemo. I was unable to find pleasure in reading or tv. One day I noticed Mr. Barry book on a shelf in the den. I read the book as I was able and it lifted me out of the depression I was in. All these years later I read everything he writes. This was a long way of saying that his books are nothing short of hilarious. I strongly recommend this book.

I needed to replace my copy of this book and I'm glad I got it from it is just as funny as ever Dave Barry really is one of the greatest if not the greatest humor columnist there ever has been it doesn't matter that some of the pieces are dated nothing changes about human nature which is really always the target he takes on if you want to laugh read it

Dave Barry is one of the foremost humorists of the 20th century (and 21st, although less active in this millennium). Not only is he hilarious, but he was consistently hilarious at the Miami Herald for decades--quite a fete. In DAVE BARRY IS NOT MAKING THIS UP we see some of his earlier

writings. They're wickedly clever, but occasionally meander into what might loosely be described as "journalism," before Barry had fully decided to go 100% humorist. If you're a Dave Barry fan, read this. If you are a humor writer, read this for inspiration.

I like Dave Barry. This is one more in his collection of absurd metaphors. Most are very clever and I find them entertaining for days after I've read the book. However you may find repeating them to others who you think might find them hilarious also . . . Well let me put it this way, it may lose a bit in the translation. I'm about to get another Dave Barry book to perk me up.

We used to laugh at Dave Barry, but this book didn't really get us going.

Great fun!

I have read nearly all of Dave's books, and it never ceases to amaze me that he can be hilarious on each and every occasion. He doesn't duplicate any anecdotes, he simply uses his comic genius to make up new ones.. you will never be bored with Dave's ability to make you rush to the toilet to save wetting the floor, or laughing so hard you feel sick, and the back of your head hurts. This book is my favourite. Every story is funny, clever, and even sometimes sentimental. Please buy this one, you won't regret it. He's on top form.

I thought this rather old book would be, well, rather old. But I still find myself laughing at these pieces. I'm left handed, so I really liked the article about the miseries accorded the left handers. Dave Barry often feels the need to reassure book readers that he's not writing fiction as he explores odd news stories and his odd connection with them. This is a fun
