## Customer Reviews

I was somewhat disappointed since the flash cards do not contain notes above and below the staff. I had to make my own.

This set really is for beginners. It has a picture of the different type of notes (quarter, whole, etc.) all the different signs (rest, 3/4, 4/4, crescendo, etc.) It also has the flashcards for the notes, it does not include the entire base and treble clef. My set went from low A, up to about D on the treble clef. I wanted ones that also include the notes beyond the clef (high or low C for example). Also, it has some of the keys, but it only included 2 of them, only C and G Major. I was very disappointed that it did not include all of the main keys. The paper is thick and the size is good (easy to read), but there are more than 100 cards, and they are all loose. I thought some kind of clip or ring would be helpful. Also, there is one hole at the tip middle, a horrible place if I were to clip them together.

I have used these for years for my piano students. They are a great teaching tool that I will continue to use.

These flash cards are very big and are not easy to use. I do not recommend these.

Alfred's Basic Piano Library Flash Cards are a great help to me and my piano students.

Very convenient to carry around and use as learning tool or refresher whenever you have a few spare moments. Pretty complete on the basics.

These cards are a great review for out piano practice. My favorite this is the holeTo place them on a key ring for easy flipping and safe keeping.

Haven't had a chance to use them much but I think they could be helpful if I did.
