Wonderful book! It had been very helpful and includes a huge vocabulary. It also includes useful tips

on communicating in the deaf community.

Learn sign language in a hurry.

I purchased book for my 13 year old child, as he felt bad for someone at school who was being bullied, and he didn't know how to communicate. He's been reading along with other 2 books purchased. He's gotten interested in learning along with his friends. It's got the kids on a roll. Thank you.

easy to read and to follow the instructions

Really like the book

This book does a good job of helping you understand the language since its structure is very different from english. It's helping me!

This book is very limited on signs although the diagrams are large and easy to follow I would have like to have more signs.

My daughter recently befriended a deaf child who is new to our neighborhood. Although she was already familiar with the alphabet, she was signing sentences within an hour of opening this book.
