Customer Reviews

Designs are pretty but the pages are too shiny to color on. When using my colored pencils I had to press really hard.

I prefer single pages for each print so that the markers don't bleed on the reverse side.

Terrible coloring book. pictures way too small very disappointing.

bought two but volume two was better...its ok...just a little too simple

Pros: I love the different designs and silhouettes that are included in this coloring book! I love how the coloring book is printed so well and that you can design the dresses to your liking. The whole book is high fashion and so easy to color. I love that it makes you think about styling different looks and that it gives us that are not drawing gifted the chance to still design different looks. Cons: The

price is a bit high compared to other coloring books that offer more pages. Overall, would I buy this again? Absolutely would buy this again as it offers such a great opportunity for people who are not gifted drawers. It is simply amazing! Love each silhouette and the whole style format.

Great coloring book.

I really like this book. You can let your imagination run wild.

Purchased for Mom and she loves it
