## Customer Reviews

This is a really neat book! I bought this for my niece and I found myself reading it for awhile! Adults would find some of the stuff interesting - it's not just information for kids like "what are the colors of the rainbow", but there are really interesting topics in here! I would've preferred the pages to be a little thicker; they feel like magazine sheets: thin and flimsy. I hope this book will last long in the hands of a 10 year old!

Love love love this book for my seven-year-old! We read a page every night at bedtime and she is spouting off fun new facts left and right. There are a lot of pictures and the information while there is

a lot they keep it short and kid-friendly to stick with a child's attention span. They do a very good job of keeping the child interested entertained and having fun while learning. Great book!

Gave this book to each of my grandchildren, ages 9 and 7, and was surprised how much they liked the book. There were no screams of joy when they first saw it, but the both opened it immediately and started scanning what was inside. After all the gifts were opened, they both went back to this book several times. Loved watching them.

My seven year old daughter LOVES this book! It's written in a way that keeps her coming back for more information! It's written to allow for a kiddo's mind to absorb of the facts easily and quickly, making reading this book a fun experience all around! Definitely a good find!

This book was a hit with my 7-year-old little cousin. At first he pouted, thinking the gift of a book was so boring, but when his grandfather started reading some of the pages to him, his interest peaked, and he decided he wanted to read the book himself. He now loves it, won't put it down and took it to school for show and tell.

My 8 year old girl loved this book as she's the inquisitive kind of gal.

My nephew was struggling to retain information he read so we wanted to buy a book that would hold his interest. We are 5 pages in and he doesn't want to put it down!! I love watching him read or when he reads to me.

My children really enjoy it. Each page has about 3 facts so not overwhelming for my little ones. They each pick a page before bedtime.
