American Dior

Synopsis

Christian Dior lived the American dream. From the first time he set foot in New York, the legendary designer had a special - relationship with the United States, and he may even be more important in America than in France. This book shows why.

Customer Reviews

When I saw this book, it struck me as something different, a book that actually makes you realize what Americans have done for the French fashion not only from the economic stand point but from the point of taste. It is the marriage of the French- American done right. Interesting articles and photo archives. A must have for designers and anyone just interested in an important part of the House of Dior.

Another beautiful book about Dior. This lavishly illustrated volume traces the history of Dior in America starting from the times of "The New Look" to the recent era. The book also delves into discussing how America contributed to the House of Dior. Interesting read and beautiful fashion photography. Highly recommended.
