My brother is facing early Alzheimer stages, so I got this book for his mind....puzzles help exercise the mind.

This activity book was perfect for my spring break travels. The dot to dots are impressive (they have about 600 dots each). All of the games have coloring images around them.

bought this for my mom she loves it!

Nice book!

I received my adult activity book in the mail yesterday afternoon and have already spent a good amount of time exploring the various games/activities. I was curious what exactly an adult activity book would entail and I was not disappointed. So much fun! From word scrambles, to hangman, to intricate dot to dot designs/games, it truly is a reminder that these games are not just for the kids. The variety of games/puzzles, as well as the ability to play 2 player games (e.g., tic tac toe) makes this activity book a great option for anyone looking to sharpen their mind in a unique and refreshing way. I 100% recommend!

I enjoyed the word puzzles and the detailed coloring. I purchased it to give me something to do on my long flight, next month. They could leave the dot-to-dot out, though. The dots are immeasurably close to each other, so not sure what the purpose is. I would feel silly doing that. That part might be good for someone with poor motor-skills that need developed or rehabilitated though (stroke or accident victims). The book has maybe 10 double-sided pages?

bought for a friend as a gift and she loves it. Adult coloring is all the rage now.

Recommended for adults who love puzzles. This is a great book for passing the time away. Get your brain juices flowing with this Adult Activity Book that's filled with games, puzzles and much more!
