and I'm gonna play it a lot! I bought this product gently used, so there were a couple of dings and minor rips on the edges, but they are extremely minor. There aren't any marks in the book, and the CD is in perfect condition. I recently got a new alto sax, and I haven't played one in about 15 years (eek, I feel old!). This book will be a great tool to help me relearn the instrument. :) The book has many different familiar and recognizable tunes, several theory exercises, scale studies, and a full fingering chart.

This is the series my sons' saxophone instructor recommended. They both have developed quickly and are playing very well even at their elementary school ages. I highly recommend this as a follow up to book 1.

*** For 2015, they have renamed this book "Essential Elements for Band." The cover does not appear as it does here on , however the contents are 100% the same.

It was shipped on time. I haven't notice it was here 'till yesterday -- I was at the hospital. The book is tiny but seems to be very straight forward on its subjects.

This book was needed for band class. It worked for what was needed

Helpful for beginners.

Son's 9 th grade band book.. it works ã Â Â^Â

Great...boook for playing together or in a band for practice and to learn...totally recommended.
