Sellers like this it worth buying

Product as described fast delivery

While this book may be along the lines of Warriner's books, it does not maintain its tradition. It is not comprehensive for a book intended for high school seniors. It retains a fair portion of the grammar, usage, and mechanics lessons from Warriner's complete course, but it skips nearly all of the style, composition, and research lessons that Warriner used to include. This falls well short of the

reference book that I think it should be. Warriner's Complete Course has a place on my reference bookshelf; this book will not.

5 star. These are so great! fast and in time, my brother like it , Definitely a good purchase. I was looking for a replacement for my chef's product and this looks to be a really well made product. Its sharp, with a nice weight to it. Will definitely recommend to anyone looking for a good product at a reasonable price.
