Great reference with many diversified landscapes. I often used it to check my light and sky.

So pleased to finally add this to my collection of books that keep me inspired.

Wonderful art book!

Excellent book for the more advanced artist. I love every part of it. Would recommend this book and to my friends and students.

As described and posted quickly.

100 different paintings. Most of them list the colors that they used and a limited description on how they painted, or approached the subject matter. Lots to look at and help bolster any thoughts on how to paint an area.
