# Courage Tastes Of Blood: The Mapuche Community Of Nicolás Ailío And The Chilean State, 1906–2001 (Radical Perspectives)

## Synopsis

Until now, very little about the recent history of the Mapuche, Chile's largest indigenous group, has been available to English-language readers. *Courage Tastes of Blood* helps to rectify this situation. It tells the story of one Mapuche community, "Nicolás Ailán", located in the south of the country, across the entire twentieth century, from its founding in the resettlement process that followed the military defeat of the Mapuche by the Chilean state at the end of the nineteenth century. Florencia E. Mallon places oral histories gathered from community members over an extended period of time in the 1990s in dialogue with one another and with her research in national and regional archives. Taking seriously the often quite divergent subjectivities and political visions of the community's members, Mallon presents an innovative historical narrative, one that reflects a mutual collaboration between herself and the residents of Nicolás Ailán. Mallon recounts the land usurpation Nicolás Ailán endured in the first decades of the twentieth century and the community's ongoing struggle for restitution. Facing extreme poverty and inspired by the agrarian mobilizations of the 1960s, some community members participated in the agrarian reform under the government of socialist president Salvador Allende. With the military coup of 1973, they suffered repression and desperate impoverishment. Out of this turbulent period the Mapuche revitalization movement was born. What began as an effort to protest the privatization of community lands under the military dictatorship evolved into a broad movement for cultural and political recognition that continues to the present day. By providing the historical and local context for the emergence of the Mapuche revitalization movement, *Courage Tastes of Blood* offers a distinctive perspective on the evolution of Chilean democracy and its rupture with the military coup of 1973.

âœCourage Tastes of Blood explores how ordinary, marginalized indigenous peoples in Chile construct historical memory in small, discontinuous steps, a process which enables them to sustain a â™politics of differenceâ™ in a world where globalization threatens to further homogenize diversity in the name of economic progress and stability. Following this logic in her own practice, Florencia E. Mallon highlights the importance of everyday practices in understanding oral sources, and, in so doing, she challenges readers to reconsider the preconceptions of history as a field of knowledge that reproduces the rationality of power. This is a bold, fascinating, and highly original contribution to our understanding of indigenous lives, repression in Chile, and racism, and it provides a methodological lesson in rethinking fields of inquiry from the perspective of alternative knowledge producers.â• "Arturo Arias, past president of the Latin American Studies

AssociationâœFlorencia E. Mallon combines a historianâ™s sensitivity to context and an ethnographerâ™s attention to cultural description, capturing the everydayness of life in the midst of rapid social transformation. While focusing on one Mapuche community, she provides insights into larger histories of social mobilization, state formation, political violence, and community

identity.â• "Greg Grandin, author of *The Last Colonial Massacre: Latin America in the Cold*

WarâœFlorencia E. Mallon gives history a human face. Her description of a Mapuche communityâ™s struggle to recover land rights previously lost in extremely adverse conditions underscores the promise of historical work to go way beyond the cold, distanced analysis of things past. The Mapuche navigate the pages of *Courage Tastes of Blood* with the sturdy competence of devoted craftsmen carving their own destiny.â• "Alcida Rita Ramos, author of *Indigenism: Ethnic Politics in Brazil*âœ[A] unique history of modern Chile from the point of view of a Mapuche

community. . . Mallon offers an original contribution to the understanding of indigenous politics and memory, negotiations between indigenous people and the state, and the production of history from the margins.â• (Ana Mariella Bacigalupo American Ethnologist)âœMuch more than a community

study, [Mallonâ™s] book sheds new light on modern Chilean history by approaching it from the perspective of the often neglected southern frontier. It constitutes the first major work in English on the history of the Mapuche and offers a sweeping revision of the history of modern state formation in Chile.â• (Thomas Miller Klubock American Historical Review)"Courage Tastes of Blood is a

thoroughly researched, detailed, and at times incredibly moving account of the struggles faced by a Mapuche community in the face of the Chilean state. This book will be of great value not only to those interested in the recent history of indigenous peoples in Latin American, but also to anyone concerned with the inevitable contradictions, challenges, and paradoxes involved in transforming individual memories into a collective history." (Magnus Course Journal of the Royal Anthropological Institute)

"In this beautifully written book, Florencia E. Mallon combines a historian's sensitivity to context and an ethnographer's attention to thick cultural description, capturing the everydayness of life in the midst of rapid social transformation. While focusing primarily on one Mapuche community, she provides important insights into larger histories of social mobilization, state formation, political violence, and community identity. " [RR; PP] Greg Grandin, author of *The Blood of Guatemala: A History of Race and Nation* --This text refers to the Hardcover edition.

Florencia Mallon's book is a insightful and groundbreaking proposal to understand Mapuche and Chilean history. Is also very well written.
