Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

This book is mostly HS band oriented. Almost all the music is Bb-Eb. I remember that almost all my music in HS marching band was in this key. Now that I am returning to the flute my teacher is not interested in this. Although, it does have some popular tunes to play when you just want something that sounds familiar.

Essential for students and great for adults who want to learn but not be committed to paying for lessons. Easy to follow and understand.

They should have included a DVD where a person plays the flute to show you how the notes sound and how the tune is carried.

Love this book o haven't played the flute since high school and this book helped me to remember how to blow correctly, put my hands on the right keys and make the correct sounds, I highly recommend this book. Blessing

I have played the sax for more than 45 years and decided to learn the flute. It will fit nicely with some of the music I play in a band. The fingerings are similar but the embouchure is quite different. The instructional video along with the book helped me with practice to develop this part of the flute playing. I am far from accomplished but with a faithful practice schedule this product will get me to where I want to be. After that it is up to me to continue to advance. This gives the basics. Make no mistake how far one develops is fully depending on the individual's desire and determination.

I so much love my flute!!! Thanks!

So far my daughter has swallowed several lessons and we're looking forward to a bright flute playing future for her. The DVD specifically was extremely intuitive and informative. Covers everything, breathing, technique, posture etc.

I played flute in high school and have recently (in my late 30's) decided to start again. This book and video set has been perfect! I have been able to pick things up quickly and easily. Very easy to follow and work with.
