Raymond A. Barnett, a native of California, received his B.A. in mathematical statistics from the University of California at Berkeley and his M.A. in mathematics from the University of Southern California. He has been a member of the Merritt College Mathematics Department, and was chairman of the department for four years. Raymond Barnett has authored or co-authored eighteen textbooks in mathematics, most of which are still in use. In addition to international English editions, a number of books have been translated into Spanish. Ã Â Michael R. Ziegler (late) received his

B.S. from Shippensburg State College and his M.S. and Ph.D. from the University of Delaware. After completing post doctoral work at the University of Kentucky, he was appointed to the faculty of Marquette University where he held the rank of Professor in the Department of Mathematics, Statistics, and Computer Science. Dr. Ziegler published over a dozen research articles in complex analysis and co-authored eleven undergraduate mathematics textbooks with Raymond A. Barnett, and more recently, Karl E. Byleen. Ã Â Karl E. Byleen received his B.S., M.A. and Ph.D. degrees in mathematics from the University of Nebraska. He is currently an Associate Professor in the Department of Mathematics, Statistics and Computer Science of Marquette University. He has published a dozen research articles on the algebraic theory of semigroups.

I mean it's a book so..yeah.

so glad the class is OVER Oooooooooo did great

Terrible. These authors seem to know calculus well, however, they lack the ability to communicate through their writing! My class used this book and if I read through the chapter I would become even more confused than I already was.

Server the purpose

Got it for school, the book sucks at explaining math.

I can't find anything I need in this book. It has not helped me at all. The explanations are not very helpful.

ok

This book was a horrible example of the survey of Calculus. In the book the reader must use outside sources in order to preform the equations stated
