Microsoft Specialist Guide To Microsoft Windows 10 (Exam 70-697, Configuring Windows Devices)

Synopsis

Prepare for a career in network administration using Microsoft Windows 10 with the real-world examples and hands-on activities that reinforce key concepts in MICROSOFT SPECIALIST GUIDE TO MICROSOFT WINDOWS 10. This book also features troubleshooting tips for solutions to common problems that you will encounter in Windows 10 administration. This book's in-depth study focuses on all of the functions and features of installing, configuring, and maintaining Windows 10 as a client operating system. Activities let you experience first-hand the processes involved in Windows 10 configuration and management. Review Questions reinforce concepts and help you prepare for the Microsoft certification exam. Case Projects offer a real-world perspective on the concepts introduced in each chapter, helping you prepare for even the most challenging situations that must be managed in a live networking environment.

Customer Reviews

Byron Wright is owner of BTW Technology Solutions, which provides Exchange Server and Office 365 implementation and migration services. Mr. Wright is a Microsoft MVP for Exchange server since 2012. He has a broad range of knowledge about Microsoft operating systems, Active Directory, networking, security, and cloud services. As a Microsoft Certified Trainer (MCT), Mr. Wright provides practical advice and exam relevant content to a wide variety of organizations. He has authored and co-authored a number of books for Cengage Learning on Windows Server 2003, Exchange Server 2003, Windows Vista, and Windows 7. He also occasionally teaches information

systems course for the Asper School of Business at the University of Manitoba. Leon Plesniarski is a Senior Solutions Architect who has been building with Microsoft products since 1984. Mr. Plesniarski's formal training was in Computer and Electrical Engineering, but he has since applied his skills primarily in computer networking. He has worked as a network administrator and technical instructor. He currently works as a consultant for Broadview Networks to analyze client requirements and provide practical solutions for their needs. In recent years Mr. Plesniarski has focused on Microsoft cloud services, such as Windows Azure, Office 365, and Microsoft Intune. Mr. Plesniarski leverages his teaching skills and experience as a Microsoft Certified Trainer (MCT) to create learning materials that are technically accurate and easy to understand. He has previously created course materials for A+ certificate. For Cengage, he has authored leading books detailing both Windows Vista and Windows.

Required for class. This book is not well-written. It seems to assume that the reader knows most of stuff. It's very dry and the chapters aren't arranged well. Some easy and short chapters were in the middle when they would have been better if they were in the first chapters

The book showed up on time and was as described.

Exactly what I needed for class.
