# There Are No Sad Dogs In Heaven: Finding Comfort After The Loss Of A Pet

## Synopsis

Our pets are part of the family. For many they are as close as children; for some they may be our only children. And while most of us can expect that our children will outlive us, sadly, our pets almost never do. Losing a pet can be as difficult as losing any other family member; we grieve, we miss them, and, mostly, we want closure, to know that our furry, feathered, or scaled friends are okay, wherever they are. For years, animal communicator Sonya Fitzpatrick has helped pet owners cope with the loss of their beloved companions. Many of them ask the same questions: Is my pet happy? Why did this happen? Is it okay to get another pet? Using her personal experiences as well as the stories of the families she's worked with, Sonya sheds some light on the questions that every grieving pet owner has, and assures the reader that there are, in fact, no sad dogs (or cats or birds or turtles or horses or cows) in heaven.

Loved it so much that I read it all in one afternoon. Was so disappointed when it ended and that I

hadn't savored it. This is a book for anyone who has lost any of one's own dear hearts - animal or otherwise. This is a book for anyone who is grieving; this is a book for anyone who knows anyone who has suffered a loss. This book helps fill the hole in your heart.

It is a book for anyone that has had a pet pass away. I lost mine recently and this book puts my mind to ease and has been a great help with winstons passing

I love this book. When a beloved pet dies, there is almost nothing that consoles you. Reading the first few chapters I found immediate solace. Sonya's words are nothing extraordinary, but she explains various viewpoints on the human-pet connection and soul contracts. I hadn't really heard much about this before, and honestly, I found that it didn't really matter if I agreed with it or not. I'm always resistant to new age ideas, but for whatever reason, grief allowed me to be more receptive to it as truth. Reading through the discussions with a broken heart though provides healing that is beyond any human comfort you can get during these times.

I really needed this book..if you know anyone going through the loss of a pet..this is a MUST..I am finding comfort in every page..I am going to get one to keep on hand if I need to give to a friend

I have mixed feelings about this book after having a personal reading with Sonya. I think the book and Sonya are very comforting to those going through the loss of a pet. If you have lost your pet, and are willing to overcome skepticism to believe what this book says, it will comfort you and it comforted me. I almost wish I had not had a personal reading with Sonya after reading this book because it made me look at the book in a different light. While comforting, it also feels like marketing material. After reading the book and reading about these very specific readings Sonya has with her clients, and the amazing things she is able to tell them, you will want to schedule a reading yourself. Sonya even asked me if reading this book is what led me to scheduling a reading with her, and I bet it's giving her lots of business. But my reading was very different than the ones she talks about in the book, the things she told me were much more general and vague, and could apply to anyone who had lost a pet, and she didn't say anything that made me certain she was actually communicating with my animals. It made me wonder if this book is a bit of fiction, or at the very least, a collection of the few readings she's given that happen to very luckily hit the nail on the head. So do I recommend the book, sure. Do I think it's all legit, I'm not so sure.

I was dealing with the loss of my beautiful schnauzer, Baby. I read all the Biblical books, I read Rainbow Bridge, but I was still struggling. Through this book I realized that I am not crazy when I speak to Baby (Maybe other times I am), I believe she comes back to visit and so does her sister Angel. They both know we tried everything humanly possibly to extend their lives until they both told me each in their own time, they had enough. They told me when it was time to let go. I am not sure I would sign up for a session with a pet psychic, but the book helped me to deal with my great loss.

I have actually had a reading by Sonya when my lab passed. She said things no one could ever know...many things. So when I saw this book I had to purchase a few copies for myself and for friends. I found this book very soothing to read.

I just lost my dog more than a week ago and decided to buy this book due to its great reviews. I read the whole book in one sitting. It helped me understand that there is no separation between me and my precious baby, he is just no longer in his physical body but his spirit will be with me forever. It gives me a little bit of relief.
