I ordered this book primarily because of the exceptional reviews. When the book arrived, it was smaller than an average cookbook with poor paper quality. The book was "padded" with most of the recipes on one side of the page and the nutritional info on the opposite page. Even the page of the index was listed as 219 and the book didn't even have a page 219! The recipes were not inspiring and there were only about 90 recipes in the entire book. I was pretty shocked that the book had been reviewed so well UNTIL I STARTED LOOKING AT THE REVIEWS! Almost all of the 5 star reviews were written by either the author or friends/family because that is the only book they have reviewed! This really disgusts me because reviews are pretty much all we can use in determining how well a book has been received. I have REPORTED these reviews and have RETURNED my book for a full refund! Thank God for 's great policies!

Surprisingly small, and with no pictures! I was expecting to browse the pictures in deciding what to make. Can't speak to any of the recipes yet, but so far this is not an appealing or inspiring cookbook. Will probably return.

Love this cookbook. Already cooked 3 things from this in my first two weeks and all tasted great

I bought this book based on the front cover photo (bottom left) of a seafood dish with calamari, shrimp and mussels . . primarily the calamari. There is no such recipe in the book. There are no recipes containing calamari in the book. Very disappointed!

I was looking for healthy recipes that I could make in my slow-cooker -- this recipe book looked as though it would fill the bill. I selected two recipes that I thought sounded pretty good, but was surprised by the number and combination of spices listed. Nonetheless, I went out and bought those I didn't have. Both dishes were less than exciting. My husband wouldn't eat the leftovers after my first serving of each.

Great recipe options. Increased my dinner choices ten fold!

No pictures...disappointed in layout of book...
