Customer Reviews

If you're short on ideas of how to afford to travel (and you've got just a little gumption) you can't miss finding a way to make it happen with this book. It's packed with accurate information that can help you transform your imagination into an affordable plan, then go! I did it and I'll never be the same again... As Bruce says -- you can leave the rat race for awhile -- it WILL be here when you get back. You just don't feel so much like a rat any more!

This travel guide book is a great read before bouncing around the world for the first time, and the resources in the back of the book would be an incredible reference except that it's so outdated that phone numbers and companies no longer exist and no websites are listed! Otherwise it's a great read and reference before traveling.
