Biological Wastewater Treatment Process Design Calculations

Synopsis

Description of three biological wastewater treatment processes, activated sludge, MBBR (moving bed biofilm reactor), and MBR (membrane bioreactor). Each of these processes is described and discussed in turn. For each of them there is background information about the process, a general description of the process, and description of the process design calculations for that process along with examples illustrating those calculations. Use of spreadsheets for the calculations is covered also, including numerous screenshots of spreadsheets set up to make the various calculations discussed in the book.

Book Information

File Size: 6337 KB

Print Length: 116 pages

Publication Date: January 4, 2017

Sold by: Amazon Digital Services LLC

Language: English

ASIN: B01MU7NEWU

Text-to-Speech: Enabled

X-Ray: Not Enabled

Word Wise: Not Enabled

Lending: Not Enabled

Enhanced Typesetting: Not Enabled

Best Sellers Rank: #291,894 Paid in Kindle Store (See Top 100 Paid in Kindle Store) #125
