Boothe's Small Animal Formulary, Seventh Edition

Synopsis

Boothe's Small Animal Formulary, Seventh Edition The ultimate resource on small animal drugs, right in your pocket. The seventh edition of Boothe's Small Animal Formulary includes information on more than 950 small animal drugs all within a convenient, pocket-sized resource. Featuring more than 50 additional drugs, this updated version includes a new appendix on clinically relevant drug interactions, as well as other new appendices on ophthalmic preparations and scheduled drug classifications. And, the user-friendly design makes it easier than ever to find the information you need fast. Dawn Merton Boothe, DVM, MS, PhD, DACVIM, DACVCP, is professor of physiology and pharmacology at Auburn University. She received her DVM degree and her MS and PhD degrees in physiology (clinical pharmacology) from Texas A&M University. She is a member of the American College of Veterinary Clinical Pharmacology and the American College of Veterinary Internal Medicine. New to the seventh edition: Five new appendixes with data on significant drug interactions, ophthalmic preparations, and scheduled drug classifications Over 50 new drugs added New electronic version (sold separately) sold as an app that contains information from the Orange Book and Adverse Drug Experience Reports

Customer Reviews

Very good reference for your daily consults at your clinic, the only thing that I don't like is that it doesn't tell you the contraindications of the drugs, but overall a good and quick reference on drugs commonly used in veterinary practice, I use it everyday, highly recommended.
