Customer Reviews

Entertaining, nice, light read. I never knew that they actually had people that worked actual security detail. It's nice to know that they have that- and some of the people they have in their employ actually care about what goes on in there.

Best book I have read in a long time I love true stories, Walmart has no shame. This is a must read book!!!!

Every short story had me laughing. We've all seen the sites that show pictures of people at Walmart, this book puts stories together with them. Loved it.

This is mostly bs ! I know because I was in LP for many years! This type of guy is what gives security guards a bad name. I'm not surprised that he keeps losing his jobs. It's obvious he has a beef to grind with walmart. To bad Walmart doesn't retaliate.

A monkey could have written this book and made it more interesting, none of this actually happens at Wal-Mart. Just someone with a computer and self publishing skills.

Awesome book made me laugh out loud.

This was very poorly written. Complete garbage. Don't waste your time or money. The author (if you could actually consider him one) appears to be a uneducated idiot.
