Bad Boy Rebels: Meeting The Bad Boy Rebels (Bad Boy Rebels Series Book 1)

Synopsis

My name is Zhara and I've spent the last couple of years pretending to be a good girl. But then the Bad Boy Rebels enter my life and everything changes. The Bad Boy Rebels are six guys I knew from high school. All of them are sexy and love getting into trouble, so for the most part, I've always tried to keep my distance from them. But now they want me to join a secret detective program and work undercover with them, pretending to be their fake girlfriend. And the number one rule to my first assignment: I can no longer act like a good girl. I think I'm in way over my head. This is a reverse harem series.

Customer Reviews

I really like this series, just hate that it's released in small portions. Luckily we don't have to wait too long for each release though. I would like to find out exactly why Jackson thought it was a good idea to brag about sharing a girlfriend with five other guys. That's not something I would imagine most guys would consider as brag worthy.

But now I'm left with lots of questions and I'm dying!!! Please come out with next book soon! The girl

is easy to like. The guys hot and storyline good!

Completely hooked on this series after only a few pages in. So glad to have rediscovered the creative greatness of Jessica Sorensen once again...

So I like the idea of this series, it just needs more filling out. Zhara is a very meek and timid girl. That is understandable for her character but I feel like it was a bit too much. These are really short novellas so you don't get a lot of background and I really need more. Hopefully, we will get that in the next few stories.

When I read the book blurb, I was thinking it was a somewhat normal storyline; shy girl befriends bad boy, shy girl gains confidence with said friendship, friendship turns into love although this story has the added benefit of there being 6 guys. Well, the story is nowhere near what I thought it was. Zhara has been wanting to step away from being a good girl for years to experience life and not just from the sidelines. She's learning after going to her first party that people are not what they seem. She's thrust in to danger and is given information that questions what her mom was involved in before her death. I love how the curve in the storyline was so unexpected. On to the next in the series!

Now these are also in separate volumes but I think it works best all together in one because they are short. But as per Jessica Sorenson's work... it is awesome and I can't wait for more!!!! It's is take a RH form or I hope it does goes that way. Really can't wait to read more and it needs to be longer.... these are teases Jessica we need something longer ;) but really, I recommend the series and can't wait to see how it all turns out.

This is the first three books in the series. This should really be one book. It's good. When the book ends you are going to want the next one and when that ends you are going to want the one after that. These aren't short stories set in the same world. This is more like one story that is released a little bit at a time.

I have always enjoyed Sorensen's books in the past, but I have to say that if I had not been a fan before, I would be now! This book sucked me in, and left me begging for more! It has been weeks since I found a book I sink my teeth in and keep me interested. Thank you so much, Jessica! I

stumbled upon this book since I am in a new-adult, reverse harem kick and I have to tell future readers, that if you are on this kick, you will love this series! It is new and unique. Secrets abound! I have no idea what is right around the corner, but I am sure it will be AMAZING!
