Grade Level: 3 - 7

## Customer Reviews

"Rich, humorous, thoroughly satisfying."--(starred) Library Journal.

A stand-alone sequel to *"My Father's Dragon*, in which Elmer Elevator and the flying baby dragon help the king of the canaries find treasure. --This text refers to an out of print or unavailable edition of this title.

This is such a great kids' series, it's a shame the latest edition is so terrible. The illustrations are awfully washed-out and it's cheap thin paper. I have an older edition of *My Father's Dragon* with dark printing and thick paper so the contrast is obvious. I'm going to try to find versions of the next two books like that one instead.

My husband read these as a child and reads them to our 4 yr old. She loves them too!

Great book series. My son read the first book in school and wanted the sequels.

Great story line and easy to follow for a beginning chapter book reader.

My 6 year old daughter and I are reading this trilogy. We love it! If you're looking for a way to expand your child's imagination, this book and series is for you. It was written in the early 1950's and I love how creative it is. With all of the technology that kids are exposed to, it's nice to go back to an age where children were lost in their imaginative adventures.

We love this series - it is a great segue into chapter novels for pre-school and kindergarten but still holds my wife and I's interest through the fun and funny storyline's and unique Ruth Stiles Gannett illustrations - make sure to go back and read the first ones in the series "My Father's Dragon"

great

our grandson loved this book! and our daughter enjoyed it too as his first read aloud chapter book..."a big boy book" for this summer's reading prior to starting kindergarten this fall. a huge hit. I ordered the sequels to extend the fun.
