Customer Reviews

It is Ok, more for a nurse or MA working in the CV office helps with questions, on the points for high risk.

Valuable resource

good

Very useful

This is a great resource as I use it all the time in my practice. I can't remember everything and this is something I always pull out of my drawer to have available as a resource tool.

Easy resource to view on the fly

It would be more helpful if the cards could be disconnected; but good content. Prob would not use in everyday practice.
