STONE SECURITY: The Complete 5 Books Series

Synopsis

A Kindle Unlimited Bundle...Enjoy the complete Stone Security series.Romance, Suspense, Mystery and a touch of Comedy.5 Books. No Cliffhangers. More than 1,000 pages :)JACKRunning from her past, Raelyn ends up at the doorstep of security firm owner, Jack. Needing help and shelter, Jack offers her both. Under attack, they can't help the connection that builds between them. With the past breathing down her neck, she has to do her best to survive, no matter what.

BRENTHe was wearing street clothes. That's how I knew he didn't fit in and, in lieu of the attacks that had been happening to the girls at the club, I knew he was either trouble or salvation. When he came to talk to me, he wouldn't look me in the eye. What kind of a man does that? But when he did—was it possible to see your future in someone else's eyes?

REMYThere was no excuse he could offer that could convince me that we weren't meant to be together. I mean, he did work for my big brothers and they could be a huge obstacle in any relationship I was involved in. And his best friend was my other brother. Then there was my crazy boss, spouting insane stories about the chief of police. Oh, and the warrant that was issued for his arrest was an issue, too. But those weren't real obstacles, were they?

AIDENWasn't it just inviting trouble to bring someone into my life, someone who wanted to go out and be social, when I was hiding from dangers that could be lurking around the corner, or hundreds of miles away? He was hot, a former Navy SEAL, the kind of man who could clearly take care of himself. And I needed a little of that in my life. Was it really wrong to crave the safety of a man's arms?

GENTRYI had a secret I needed to tell, but when I saw him at the airport, my tongue twisted in my mouth. And when I saw his fiancée standing behind him, my heart shattered and the words were lost. How could I tell him now, now that the evidence that he'd gone on with his life was standing in front of me in the persona of a living, breathing German doll? I couldn't do it. But then a vendetta some motorcycle club held against his brothers came to roost on my doorstep and we were thrown together, forced to breathe the same air again for the first time in ten years.

OMG this my first time reading Glenna Sinclair and believe me, it not be my last time. I could not turn the pages fast enough it is so real and exciting. The Stone family consists if 4 brothers and one sister. The siblings inherit a fortune each from their deceased parents. They each make a pact to pool their fortunes together and start a security business. This is where you can play movie director and cast your favorite stars in the amazing cast of characters i n this amazing book. The book takes details each character. You must read for yourself to learn of the soul mate involvement, each with their own dark secret past; trust me, it is well worth it to find out on your own. For the low low price of just 99 cents, you will be well entertained. I already downloaded another series by this great author.

I have read everything Glenna Sinclair has written and this series was not a disappointment at all. Loved it. Loved every character. I could've read 1000 more pages of this series and still it would never be enough. I have kindle unlimited but when a book comes out from Ms Sinclair, I automatically buy it. Always wonderful and definitely cannot put down.

A complete 5 book series depicting every Stone sibling and their journeys to finding the love of their lives. Beautifully written, from every perspective including choas, love, heartbreak, heartwarming tenderness and did I mention love, oh yeah, there's plenty of that, but it's the journey they endure to finding that one great love that makes this book so amazing, yes it's long, 5 books long, each with its own happy ending, each character brought together in each book, but sooooo worth the read.

HIGHLY HIGHLY RECOMMENDED

I absolutely loved this series!! Glenna Sinclair is a great writer. I love a combination of suspense, a little comedy, women who are spitfires, and of course love. These stone brothers are definitely the strong heroes who fight for their women and try to make their city better by getting the criminals behind bars. It was very hard for me to put these books down. Their sister, Remy was a character also, in a good way. I highly recommend this series. You won't regret it.

The excitement starts at the first word and keeps you engaged all the way through mixed in with hot romance

Loved the Stone brothers and their sister Remy. These stories have a lot of action and they are prior military or DEA and they love their women. Great read for anyone who love these type of books.

This was a great series! Stories of the lives of Jack, Brent, Remy , Aiden, and Gentry were interesting to say the least but brought out many emotions and issues to the front. All were former military or police force and their lives though a little different were intertwined in each of the stories, that was great. Highly Recommend!!

I was captivated from the beginning and the sex was hot. I could not put down the series. I look forward to all her books!
