Sacred Space: Clearing And Enhancing The Energy Of Your Home

Synopsis

"Our homes are mirrors of ourselves. Through them we can interface with the universe." Everything in the universe is composed of constantly changing energy, including your home and its contents. In this fascinating and unusual book, Denise Linn shows you how you can dramatically change your life by changing the environment in your home or office. She combines information from her own Native American heritage with material she has personally collected from native traditions around the world to bring you practical, easy-to-use exercises for balancing the physical, emotional and spiritual energies in your home, including how to:

- * Diagnose and solve problems with stagnant home energies.

This book literally flew out the door when we published it. It still sells enormously well. SACRED SPACE and THE SECRET LANGUAGE OF SIGNS are the two books by Denise Linn that readers

love most. Denise Linn is one of the most important spiritual teachers and healers at work today. Her many books have been enormously popular with readers--particularly SACRED SPACE, THE SECRET LANGUAGE OF SIGNS, and QUEST. Ballantine will continue to publish this important author in the years ahead. SACRED LEGACIES: HEALING YOUR PAST AND CREATING A POSITIVE FUTURE will be forthcoming in February 1999 and ALTARS: BRINGING SACRED SHRINES INTO YOUR EVERYDAY LIFE will be published in fall 1999. I have read it before and have passed it on

Wonderful book on house blessings and Energy..How space effects us and how our energy effect the space we live and dwell in...Love this book...you can read it in sections...you dont have to just set down and read from front to back..in my opinion its a better read that way..to digest and think about what you read...

Loved the first few chapters of this book--the it got a little too airy-fairy for me. She's got the right idea though.

There is so much packed into this book, it is hard to grasp it all. Most of the concepts and practices are new to me, but they have a familiar ring. I have to choose one or two things to go work on, but I realize that it is all about intent. I recommend this book to anyone who enjoys seeking and expanding their thoughts in this area.

I have had the paperback book for years, and had loaned it to a friend, I missed mine so downloaded this one to my kindle. Love the book

If you love your home you will love this book. It shows amazingly simple ways to clean-up! No silly recipes, but down to earth solutions that make all the difference if you feel your house is loaded with bad energies! [and all that junk, specially the emotional one!] The nice thing is that you learn how to do it slowly, so you have time to understand what you are doing. Now people that come into my home feel the difference in the air. Once you get started on Denise Linn, you'll want all of her books and any one she recommends.

This book has EVERYTHING you could possibly want for any kind of space clearing. It has different ways of clearing your space as well as explaining it in plain english. It also taught me a lot about things to have in my space to make it better as well as how to have things placed. This book is a must have for having a comfortable home.

There is a lot of very nice information in this book...a good portion relates to American Indian culture, as it is part of the authors heritage. Some very kind words about looking at our home and our belongings with reverence. Nice read.
