Best Sellers Rank: #47 in Books > Audible Audiobooks > Arts & Entertainment > Photography
#210 in Books > Arts & Photography > Photography & Video > Architectural > Houses & Hotels
#221 in Books > Arts & Photography > Photography & Video > Equipment, Techniques & Reference > Lighting

Customer Reviews

Don't buy this book. I bought this as a last minute X-mas gift for my daughter-in-law. It's less than 100 pages, contains zero illustrations or photos. It is a scam. The only thing it has is a nice cover design. Don't be fooled.

I found the discussion and tips here useful and fairly easy to understand as well as to apply in my own photography efforts. The one thing I would have found even more useful in this book was a diagram of the various lighting setups and then an example or two of the results afterwards. In the meantime, I will have to do these myself for my own lighting notebook.

Fine as usual
