I take this cookbook with me when I travel to see my great nieces and nephews, they open this book immediately (they span ages 3 thru 9) and begin picking out what we will make during my stay. The ingredients are not hard to pull together, the recipes are so easy to follow and the result is always very tasty. The smallest kids can make the deli faces or stir the tomato alphabet soup, the older kids have their standby favorites including Juicy Hamburgers, Macaroni & Cheese, Zesty Chicken and hot chocolate. Even better, they are learning that cooking is so much better and more satisfying than out of a box or bottle. I plan to give these as a present when they are older and continue to purchase and gift to the children of friends...after we (the child and I) choose something and cook it for their family. It's a gift that really lasts.

This is the cutest cookbook. I love that the recipes are easy to follow, use ingredients found in most kitchens or use ingredients that can be bought at any grocery store, and are pretty quick and easy to make.

I bought Kosher by Design Kids in the Kitchen for my grandchildren. They just love helping their mom in the Kitchen. Since they received this book, they've made brownies and cupcakes. They sent me samples of the delicacies that they made on their own. One of the best gifts that I got for them! The book came in excellent condition and it was signed by the author, Susie Fishbein.

adorable recipes for grandmas and grandkids to do together. they are very simple and use many ingredients that are already on hand. I have purchased four of these - one is for my household so that I can confer talk with the kids about what we're ;making next and what ingredients I need. so far, we have made half-sour pickles, pumpkin custard and my granddaughter at her house has made delicious banana blueberry bread. the pictures are gorgeous. my only complaint is I wish there were more recipes.

most stuff is more for kids but they have some good meat and food too!

I have purchased several copies of the "KBD Kids in the Kitchen" cookbook over the years. Aside from my own copy, I gifted each of my married daughters and daughters-in-law in turn. The recipes are wonderful and easy to prepare, the photos are stunning and, best of all, you do not have to be a kid to appreciate it! I highly recommend it to anyone, child or adult, who enjoys simple, fool-proof recipes that are ready in no time.

Purchased for grandchildren at recommendation of other grandchildren, for whom I had bought it last year! Great choice -- appropriate recipes for kids to manage and to enjoy.

My daughter is happy to help with cooking now, she picks the recipes she wants to make
