Pretrial Advocacy: Planning, Analysis, And Strategy (Aspen Coursebook)

Synopsis

Pretrial Advocacy: Planning, Analysis, and Strategy, Fifth Edition provides an excellent conceptual and practical foundation for pretrial litigation for both teachers and students. Pretrial Advocacy covers both criminal and civil pretrial practice, with a focus on federal and state litigation. Professional responsibility and civility are emphasized through the text. Checklists of skills, techniques, and ethics, which appear in each chapter, as well as 79 assignments, designed for student role-play performances, allow for greater student comprehension. Features New complete password-protected website (aspenadvocacybooks.com) containing: Streaming videos 79 assignments for role-play skills performances, such as drafting pleadings and taking and defending a deposition Drafting demand letters and mediation briefs with a step-by-step explanation of how to draft effective demand letters and mediation briefs with examples Pleadings Chapter newly revised and enhanced Up-to-date Rules changes are incorporated

Customer Reviews

Book arrived quickly, but the quality of the book is low. The paper is thin, the cover is thin, and they actually gave us CD-Roms and DVDs to use. Most students have laptops that don't have disk drives. The publishers could save money by simply providing the access code to online content. Maybe they could take that savings and put it into paper quality.

I like the layout and I found, along with other classmates, that this book was amazing.

Informative--as law books tend to be. However, many law students can attest that studying law is not exactly fun. This book brought back the fun in law. You really felt like you were working your first case. I cannot give it high enough praises. The only drawback for some is the way the book does not exactly follow a linear line and your review chapters of the book multiple times. Still, I found that the reviews were relevant and easy to read. This is one class and book you are going to love.

Boring; not a good book (used in Motions Class); hated how you had to keep going back and forth between the cd text (which is a 500 page book in itself) and the exercises which constantly refer back to it; hard to correlate and wasted a lot of money on printer ink.

Book did not come with the CD that was required to complete the exercises in the book

The product was fine. The DVD and web materials were also helpful. I wish my course had been better aligned to the book.

Most of this book was obvious to anyone who had been through a semester of law school. It reads more like an undergrad book.

Well laid out, very helpful upper writing text. The checklists are helpful when proofing assignments. I'll be keeping this text.

I am using this for an intensive course and it's serving its purpose. It's easy to read and understand. The materials on the CD are helpful. It's nice that they are in PDF form on the CD so they can be saved to my computer and I do not need to have it at all times.
