The Lost Mode Of Prayer

Synopsis

Is there a forgotten spiritual tool that offers each one of us the ability to heal ourselves, our relationships with others, and even our endangered planet? On *The Lost Mode of Prayer*, Gregg Braden-the author of the phenomenal book *Awakening to Zero Point*-examines evidence from both modern science and ancient texts to shed light on a secret lost to humanity in the year 325. This knowledge was relegated to elite priesthoods and mystery schools in the fourth century, leaving a crucial gap in our understanding of the world. Now, through newly translated texts preserved by the authors of the Dead Sea Scrolls, Braden reveals the inner workings of this powerful force sleeping in the mists of our ancient memory-and how to use this inner technology to create profound changes in ourselves and those around us.

New York Times bestselling author Gregg Braden is known for his writing style that bridges science and spirituality. After a successful career as a Computer Geologist for Phillips Petroleum during the 1970s energy crisis, he worked as a Senior Computer Systems Designer with Martin Marietta. In 1991 he became The First Technical Operations Manager for Cisco Systems. For more than 22 years, Gregg searched high mountain villages, remote monasteries, and forgotten texts to uncover timeless secrets. To date, his work has produced many thought-provoking books: *The Isaiah Effect*, *The God Code*, *The Divine Matrix*, and his most recent, *Fractal Time: The Secret of 2012 and a New World Age*.

After hearing Gregg Braden speak I ordered three of his cds thinking that his books would be harder to read for me. I ordered this cd and the language of god and the healing cd. They all kind of interlap each other with some of the same info but are all excellent. If I could only buy one cd it would hands down be this one. I have it in my car and I have listened to it over and over again for over a month now. Love the message. I find it hard to change my way of prayer but I am working on it and finding the new way is bringing much sucess. He is a fabulous author and speaker and I feel so blessed to have had the opportunity to have heard him in person. His words have changed my life forever in a wonderful way.

authoritative and uncomsence.

V Good DC Thanx

I have read and re-read this book and bought the audio tape as well. There is so much in this book. Well worth it.

Before Mr. Braden ever tells us what the lost mode of prayer is, we have to listen to both sides of tape 1, then listen to more than half of side A of tape 2 - and there are only two tapes. Most of the tape 1 is dedicated to:1) descriptions of various prophecies that all support the idea that we are in a historical period of change (You probably already know that without the help of prophecies.)2) distorted references to scientific research (cold fusion, molecular structure, new observations in astronomy, etc.) used in attempts to support the idea that we are all connected through vibrational energy (which I believe is true on some levels, but most of his examples don't really logically support the idea. It just seems like an attempt to make the tape sound academic when it's not. There are even grammatical errors.)The lost mode of prayer can be summed up as follows: Don't pray _for_ things because that focuses on lack and fear. Instead use all of your senses to feel, see, smell, move through how things are as you want them. Then, give thanks for your part in the creation. For example, instead of praying _for_ rain," "pray rain." Experience how it feels, looks, etc., then give thanks. Okay, this actually is a great way to deepen prayer, but it takes forever for the tapes to get there. The rest of tape 2 focuses some on praying peace and using nature to get back to the feeling of peace. The Hindu peace prayer is nice and at first seems to bring the tape to a close on a higher spiritual plane. But then, it is jarringly followed by a commercial after a very brief musical interlude!

I am very excited to find any information that supports the power of prayer. It appears that Gregg has done his homework about sacred text. It all sounds very good. I have not yet been able to find some of the information he shares about Jesus, Mary, or Mary's mother etc... This is very exciting information that is my passion. The audio is great for anyone who is seeking a purer connection to the power of prayer and how it joins science. If you have an open mind and heart I am sure something amazing will be revealed in your consciousness, if you are a truth seeker. I loved it. Buy it, listen closely and feel your heart.

I use this in my daily meditations and when I do my affirmative prayers. So powerful! Thank you again Gregg Braden...Peace, Love, Unity, Oneness.

The Lost Mode Of Prayer examines our ability to become more than a spectator in creation. As a student of the healing effects of prayer for over 16 years, I found Mr. Braden's tapes inspired and very helpful. Prayer is a tangible tool. Mr. Braden understands this and provides an outline for exploration that those who are open to the possibility of proactive personal healing may follow. His methods work. At the very least, listeners will find themselves moved to examine their faith. Those who have begun to work with their faith will discover a new empowerment.
