## Customer Reviews

Disappointing so far considering Manuel Barrueco's stature as a truly great guitarist. While I was waiting for it, I downloaded another free transcription of "Cadiz" so I could get started working on it. When I finally got the Barrueco in the mail, I found that many parts of the free transcription by an unknown person were actually far superior to those same parts in the Barrueco version. So, I did a little "cut and paste" to combine them. Also, the free version, containing the exact same amount of music was just 2.5 pages long, while the Barrueco version was SIX pages long, due to excessive space between the staves, excessive space between the notes, and writing out a full section for which a simple repeat would have sufficed. Maybe he was getting a commission for selling paper, but practicing musicians prefer to avoid page turns if possible.

I think the Suite Espanola is great. I've only played Granada so far.

Best arrangements of Albeniz available in my opinion, performances of which are posted on Youtube. Maestro Barrueco has been my favorite guitarist for decades.

Took a while to come but was in adequate condition and is definitely great for guitar inspiration.

Very happy with it
