Customer Reviews

"If any one person can be credited with elevating the status of the vegetable in American gardens, it's Rosalind Creasy." -- Garden Design "Rosalind Creasy books always brighten my day...They are full of colour and energy and enthusiasm...and some startling ideas." -- Southam Newspapers

Wonderful

I am Glenn's wife. He ordered the book for me because I am new to making a large garden. I have found this book very helpful in planning next years garden and I can't wait to plant it.

You don't have to be a gardener to appreciate Rosalind's latest book. She takes you by the hand as she describes the vegetable gardens and produce markets she visited in Italy. BTW, you won't need to fly out of the country to see one of the most spectacular gardens, The Sebastiani Winery gardens in Sonoma Valley (California). Want to start a garden? Choose the veggies from the Italian Garden Encyclopedia and use the rare seed sources listed in the back of the book. Want to start cooking

right away? Thumb through the recipes for inspiration. New to gardening altogether? Read the author's sage advice on planting, maintenance and pest control. I particularly recommend this book to the struggling dieter as it will give you a new appreciation for vegetables and a great workout in the garden!
