PreS-Gr. 1. From the Ready-to-Read series that includes See Otto (2002) and Ride Otto Ride! (2002), this very simple book introduces a little mouse named Pip. "See Pip. See Pip point" begins the text. When Pip sees Otto's purple helium balloon, he points at it repeatedly until Otto politely hands it over. The balloon quickly lifts lightweight Pip into the air. A bee accidentally runs into the balloon and pops it, but Otto flies by in a clunky wooden airplane and saves Pip. Unfortunately, the plane crashes into a tree, and Otto and Pip splash into a pond beside a couple of hippos. The little

one holds a red balloon. "See Pip point" the text concludes, implying a continuing story beyond the last page. The illustrations, large in scale and clearly delineated against white backgrounds, feature particularly expressive characters. Using a very few short words, plenty of action, and droll humor, Milgrim creates a book that even beginners will enjoy reading. Read-aloud fun for those not ready to read, too. "In his third beginning reader about Otto the robot, Milgrim (See Otto, 2002, etc.) introduces another new friend for Otto, a little mouse named Pip. The simple plot involves a large balloon that Otto kindly shares with Pip after the mouse has a rather funny pointing attack. (Pip seems to be in that I-point-and-I-want-it phase common with one-year-olds.) The big purple balloon is large enough to carry Pip up and away over the clouds, until Pip runs into Zee the bee. (â œOops, there goes Pip.â •) Otto flies a plane up to rescue Pip (â œHurry, Otto, Hurryâ •), but they crash (and splash) in front of some hippos with another big balloon, and the story ends as it begins, with a droll â œSee Pip point.â • Milgrim again succeeds in the difficult challenge of creating a real, funny story with just a few simple words. His illustrations utilize lots of motion and basic geometric shapes with heavy black outlines, all against pastel backgrounds with text set in an extra-large typeface. Emergent readers will like the humor in little Pipâ ™s pointed requests, and more engaging adventures for Otto and Pip will be welcome additions to the limited selection of funny stories for children just beginning to read. (Easy reader. 5-7)." (Kirkus Reviews)

This is the first book we found at the library that I felt confident enough to help my son read. He loved it so much that we read it over and over. He knows this one almost by heart and adores reading it. We got the whole collection of The Adventures of Otto because of this book! He loves them because it is the sight words and other easy words. This book has given him more confidence in himself to read more and try to read because there aren't so many words he has to figure out. It is repetitive words, sight words and just easy all around words. Add that to the fun of the story and it is fantastic.

Easy and fun to read. My son loves the stories about Otto and loves that he can read it by himself.

As Pip floats away on a balloon Otto springs into action. This is a perfect pre level one reader to pique the interest of young children. We love it.

What a fun first reading book! The words are simple enough for beginning readers, but the events are fun and unexpected. My son and I laughed hard the first time we read it and still do after many many more reads.

My kids love all of the Otto books. Easy to read for truly beginning readers. Much along the lines of Dick and Jane, with humor.

My son loves the Otto books. A rare combo of entertaining story and easy vocabulary

great book

This whole series is so much fun for the very beginning reader. Loved this addition as well.
